Amcon Controls is offering a **Tridium Niagara Jace** (JCI, Honeywell) Class. Includes five full days starting at 8am each day and ending at 5pm. Lunch is provided by Amcon Control from 12 to 1pm.

1. This class will take the students from the architecture of the Tridium product to setting up a new job, downloading the software, discovering points, building graphics, programming, and the setting up of trends and alarms.
2. This class has been designed, not to teach every aspect of the tridium product, but to help technicians to get started building real jobs.
3. This class is non-certified.
4. This class does not cover programming of the unit controllers. This is a class is for supervisory Tridium controls.
5. Students should have a good computer knowledge to attend class.
6. Cost for this class is \$1000.00 per person.
7. These classes usually fill up quickly. First come first serve, do not delay getting your registration in.
8. A minimum amount of persons registered is required to hold this class. If you registered and the class does not fill up you will be notified of the next possible date.

For question please contact Mark A. Bickle at 210-349-6161 or [mark@amcon.net](mailto:mark@amcon.net)
